

ALKALIZE TO GO

ARE THERE ANY SIDE EFFECTS?

It depends.

Based on your level of health, you may notice some detoxification symptoms such as loose bowels, temporary skin blemishes or mild headaches. This is simply your body's way of flushing out toxins and replenishing itself with the healthy nutrients it needs and longs for. "Detoxification symptoms" are typically short term if they appear at all. Positive "side effects" may include better sleep, more energy, improved joint mobility and weight loss.

ALKALIZE TO GO

WHAT IS ALKALIZE TO GO?

ATG is an all-natural, organic mineral complex derived from a pristine ocean source found near the Okinawan Islands. Harvested in it's natural form.

NATURAL

CONTAINS 70 TRACE MINERALS

WHEN MINERALS ARE FULLY SUSPENDED IN WATER, THEY ARE IN A FORM THAT IS EASILY ABSORBED BY THE BODY.

Alkalize To Go is the **Water Secret**. The key to vibrant health from the inside out lies in maintaining strong cells that can retain water the way younger cells do.

You are only as healthy as your cells are, and your cells are only as healthy as the water that fills and surrounds them.

THE WATER SECRET

IS YOUR BODY RUNNING ON EMPTY?

CHRONIC EXHAUSTION
EXCESSIVE CRAVINGS
SLOW METABOLISM
HIGH BLOOD PRESSURE
ACID REFLUX
MENTAL FOG
JOINT PAIN
ANTI-AGING
DISEASE
CULTURAL STRESS

Most People Are Drinking Dead Water

Typical water found in our water supply, including bottled, is often referred to as inferior or "dead" water by those in the health field.

What Minerals Can Do For You...the water secret

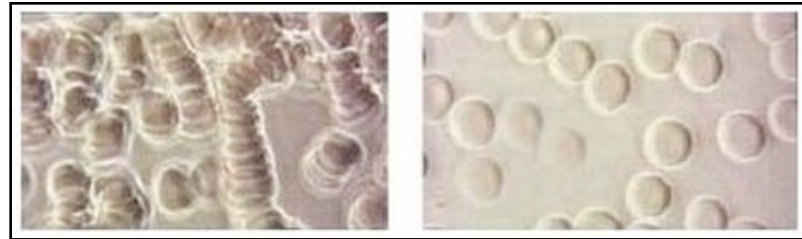

Chances are, you might be experiencing chronic exhaustion, the lack of a healthy glow, not sleeping well, fatigue, or the extra pounds you didn't have a year ago. Maybe it's the older person looking back in the mirror, a recent diagnosis from your doctor, or simply the fear of getting sick. Or maybe you're among those lucky few who are in excellent health but you want to do more.
